Walang Natira by: Gloc9
Lumalakas na ang ulan ngunit ang payong ay butas
Tumatakbo nang madulas mga pinuno ay UNGAS!
Sila lang ang nakikinabang pero tayo ang utas
Mga kabayan natin ay lumilipad lumalabas
Para pumunta ng ibang bansa at doon magtanas.
Greetings to all our kababayans.
We hope you're all doing fine despite the trials we've been through these past years.
Our country has been abused by politicians and greedy people. The Philippines has a rotten system that these corrupt individuals keep exploiting.
Despite our calls for Filipinos to unite for the betterment of the Philippines, it seems impossible because we are so blinded by our political beliefs.
We respect each other's political views and perspectives. But this also affects the next generation, our loved ones, family, friends, and our OFWs who sacrifice so much.
Speaking of OFWs, we regret to inform you that our government has failed in its duties to you.
They're good with their flowery words, calling you our modern heroes, but they're extremely incompetent when it comes to your online security.
We just found a large server rack with terabytes of storage. That is a ticking time bomb waiting to explode. This is unbelievable negligence on the part of those in charge of your data.
We don't usually call out cybersecurity issues in our hacktivism crusade because there are already other hacktivist groups calling out the cybersecurity failures of the PH government. But this time, we are very disappointed in what we've seen.
Department of Migrant Workers, you failed our OFW heroes.
Department of Information and Communications Technology (DICT), your cyberdome AKA SOPHOS failed. You guys just talk and talk.
Since last month, we've been inside their Active Directory environment (DMW) and managed to compromise their Domain Controller.
How could their IT personnel be so careless? Their salaries come from taxpayers, especially from the OFWs they serve.
To our Overseas Filipino Workers, we apologize. We recognize your hard work, blood, and tears.
You don't have to worry about us. We are hacktivists, not cybercriminals.
To the system admins and IT personnel of the government, instead of playing games and just waiting for your salaries, why can't you try to do your jobs well?
The system administrators knew what we did there. We intentionally made noise and pinged their firewall just to let them know someone was inside.
DMW and DICT, we will accept your special thanks. We already did your job. We roamed around their servers to make sure no other hackers were inside.
But we can't say for sure if someone was already there and exfiltrated terabytes of data before we even got access.
To our OFW heroes, you are free to demand accountability for the government's negligence.
Your hard-earned taxes that you contributed to the Philippine economy are not paying for your safety.
To all our kababayans, make your voices heard. Set aside your political differences, because our future is in our hands.
For the past years, we've seen the abuse of power, greed, and massive corruption.
If you truly care for our flag and country, the time to speak and act is now.
We must stand for the welfare of our nation, not just for ourselves.

'YOU'VE ALWAYS MADE OUR COUNTRY PROUD' 🇵🇭

Senator Risa Hontiveros congratulated her former "The Sound of Music" castmate Lea Salonga after the broadway actress became the first Filipino artist to receive a star on the Hollywood Walk of Fame.

"Congratulations to my 'Sound of Music' castmate, Lea Salonga, for being the first Filipino artist on the Hollywood Walk of Fame! Mabuhay ka, Lea! You've always made our country proud," Hontiveros wrote on Sunday.

Salonga received the honor under the Live Theatre and Performance category for her work in entertainment and contribution to Asian representation. She earned Tony and Olivier awards for her role as Kim in "Miss Saigon" and voiced Princess Jasmine and Mulan in Disney's "Aladdin" and "Mulan" (Photo courtesy of Repertory PH via Facebook/Sen. #TodayInHistory

On this day in 2017, Reynaldo de Guzman, the 14-year-old friend of slain teenager Carl Angelo Arnaiz, was found dead with 31 stab wounds in Nueva Ecija. A dismissed Caloocan policeman was convicted in 2023 for the murders of two teenagers and was sentenced to 40 years in prison.

The killing and torture of Arnaiz and De Guzman were among the most high-profile cases in former President Rodrigo Duterte's bloody drug war, including the murder of 17-year-old Kian Loyd de los Santos.

OUTER PLANETS

Triton likely formed in the outer solar system before Neptune captured it, largely destroying the planet's original moon system. JWST observations published in July 2026 suggest today's inner moons reassembled from the wreckage — although Nereid may be one original survivor.

Webb spectra suggest Neptune's inner moons were rebuilt from destroyed icy interiors, while separate evidence casts eccentric Nereid as a possible original survivor.

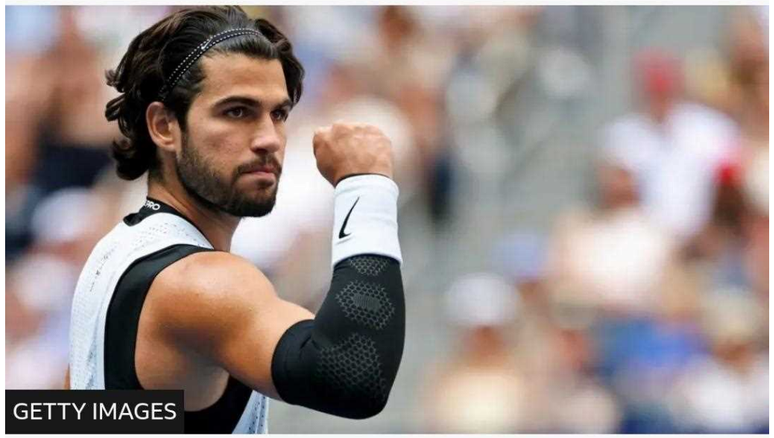
Alcaraz delivers statement win to reach last eight



Carlos Alcaraz won the US Open title in 2022 and 2025

Phil Cartwright
BBC Sport journalist

6 September 2026

Carlos Alcaraz continued his return from long-term injury with a hugely impressive fourth-round win against Tommy Paul at the US Open.

Playing just his fourth competitive singles match after an absence of more than four months, the 23-year-old Spaniard produced a masterful performance to beat American 20th seed Paul 6-4 6-3 6-4.

Love Harry Enten and his numbers on CNN. He just gave us this, and I want more people to enjoy it. Happy Labor Day weekend!

Big thanks, too, to CNN for having this guy at their network!

And because so many people appreciate getting takeaways, because they either can't watch videos, or because they don't like to, here's the list, from 10 to 1, like in a Casey Kasem countdown!

Enten also compares the numbers today to approximately where the felon was at this time in 2018, before those midterms. He's organized by the difference between now and then. Note one or two items were not polled back in 2018.

10. Immigration! Now down to -17% net approval. Was -11% in July 2018, but it was a positive issue for him in the 2024 election (+14 compared to Biden/Harris). Seems that the American people like tough immigration talk, but they don't like tough immigration reality.

Sep 07, 2026 10:27:41

10. Immigration! Now down to -17% net approval. Was -11% in July 2018, but it was a positive issue for him in the 2024 election (+14 compared to Biden/Harris). Seems that the American people like tough immigration talk, but they don't like tough immigration reality.

9. Trade & tariffs! Now down to -25% net approval. Was -13% in 2018. Note that after the 2024 election, Americans slightly favored tariffs, but now we mostly hate them (I think people didn't realize how they work).

Sep 07, 2026 10:27:46

8. Health care! Now down to -31% net approval. Was -18% in 2018. Enten points out that, even though we're always talking about gas prices, health care is the top financial concern for Americans.

7. Foreign policy! Now down to -26%, was about -13% in 2018, probably mostly due to Iran and Russia. Note that, relative to Biden and Harris, the felon was +10 just before the 2024 election. Americans didn't like Biden's Middle East policy, but the felon made it worse

6. Taxes! Now down to -25%, was about -10% in 2018. Note this is an issue where the GOP typically does well. Enten does not provide a relative to Biden/Harris poll just before the election, and not so much analysis, either. My sense is that this may be driven a little by tariffs (although I expect not everyone realizes that tariffs are taxes) and also by the affordability crisis.

5. Corruption! Now down to -31%, was about -13% in 2018. Americans are noticing that the felon made at least 2 billion during his second term. Yeah, I don't understand why this is not -100%, but the felon's buddies have bought a lot of the media.

4. Government spending! Now down to -34% net approval, was -12% in 2018. The cause is the one big beautiful bill, which added so much to the national debt.

3. Iran! Down to -36% net approval, was -9% in 2018. Yeah, pretty much everyone hates that war (I'm surprised it was even polled in 2018). Why do people hate the war? Not worth the cost (75%). Hasn't achieved objectives (88%). (Note we don't ever get 88% on anything)

2. JOBS! Down to -22% net approval, was actually +9% in 2018. People don't like the economy. Also, in term 1, at this point, manufacturing jobs had increased in the US (+342K). Now, of course, down (-50K)

And, 1. It's the Economy! Now at -33%, was also +9% in 2018. A 42 point drop. Why? Enten says it's inflation, where the felon has a -50% net approval rating. Note there was no poll on this in 2018. Here it is with a screen shot.

NEWS UPDATE: Gusto umanong sumuko at magpakulong ni Vice President Sara Duterte sa Camp Crame noong Biyernes, ngunit sinabi ni DILG Secretary Jonvic Remulla na gusto rin umano ng kampo ng VP ng "drama" at pagkakataong makuhanan siya ng larawan na nakakulong at nakaposas.

Ayon kay CIDG chief Maj. Gen. Robert Alexander Morico, batay sa naging negosasyon ng PNP-CIDG at ng security team ni Duterte, nagtanong pa umano ang kampo ng VP kung saang jail facility siya ilalagay at kung ano ang pagkain na ihahain sa kaniya.

Ngunit bigla umanong nagbago ang plano at hindi na tumuloy si Duterte sa Camp Crame. Sa halip, nagtungo siya sa Quezon City Regional Trial Court kinabukasan.

Sinabi ni Remulla na minabuti ng PNP na igalang si Duterte bilang pangalawang pinakamataas na opisyal ng bansa, kaya wala umanong basehan ang alegasyon ng harassment.

Hinamon din ni Remulla ang kampo ng VP na maglabas ng patunay na may harassment na ginawa laban sa kaniya. | via Jun Veneracion/ GMA News

'BAKA MANUNTOK'

Interior Secretary Jonvic Remulla said authorities did not arrest Vice President Sara Duterte in the manner she initially wanted to prevent drama, ensure respect, and avoid possible violence, not due to fears of her supporters rallying.

"She has a predilection to violence and extreme efforts to get her way," he said.

PAHAYAG

Mga kababayan,

Taong 2024 pa lamang ay umabot na sa akin ang impormasyon ng mga planong gawin ni Marcos. Matagal na ako sa pampublikong serbisyo at nakahanda ako araw-araw sa posibilidad gawa ng aking trabaho.

Kabilang sa mga plano ang magkaroon ng ICC warrant kay dating Pangulong Duterte at ang mga gagawin na pag-atake sa akin.

Dahil ang aking seguridad ay nakaugnay sa Hukbong Sandatahan ng Pilipinas alinsunod sa constitutional line of succession, minabuti kong ipaalam sa dating Chief of Staff Gen. Romeo Brawner ang ilang mahahalagang pakiusap. Higit sa lahat, hiniling ko na igalang at protektahan ang aking ina at mga anak, at huwag silang idamay o takutin sa kahit anumang gagawin sa akin.

Ang paglapit o pagpunta sa lugar kung saan naroroon ang aking ina at mga anak, sa kabila ng pag-amin ng DILG Secretary at ng pulisya na alam nila kung nasaan ako dahil sa kanilang mga surveillance activities, ay isang seryosong usapin, lalo na kung nadadamay o naaapektuhan ang mga menor de edad. Ang mga bata ay hindi dapat ginagamit, tinatakot, o idinadamay sa panggigipit. Ito ay child abuse.

Mga kababayan, ang isang pamahalaang hindi gumagalang at nagpoprotekta sa mga kabataan ay nagpapakita ng kawalan ng malasakit sa kinabukasan ng ating bayan.

Ma'am I don't think you have to worry. The President will not allow anything to happen to you or to FPRRD

1. To inform you if there is an arrest order that I will come to know of
2. If any action will be taken, it should be done outside your residence
3. For any queries or clarifications, to call or message you 16:26

I'm not worried, Sir. I just have to go through the 3 things with you, its in my task list 😊

Yung important No. 2, huwag lang kung nasaan mga anak ko at nanay ko 😊 Sabihan Ing lahat hanapin ako sa labas 👍

Thank you. 16:27

According to PSA Assistant National Statistician Marizza Grande, the youngest confidential funds payee is a two-month-old baby who died in 1965 and had a "single-match entry" for death certificate.

A single-match entry means that, upon searching through the PSA's Civil Registry System, the database produced an exact and unique match for the individual. #VPOnTrial

I renew my appeal to put an end to the violence, to stop the destruction and to open hearts to dialogue and peace! I hope that the efforts undertaken in these days to resume negotiations will bear concrete fruit and open space for diplomacy.

Despite flooding inside the church, the faithful continue to celebrate Sunday mass presided over by Fr. Melchor Ignacio at St. John the Baptist Parish Church in Barangay San Juan, Hagonoy, Bulacan.

During his homily, Ignacio reiterated that people can do more harm by remaining silent, saying that when change is needed, people should speak up. His message was rooted in the community's current situation, where the village has remained flooded for a month.

Concerns over flood-control projects have resurfaced following the onslaught of the southwest monsoon, which caused renewed flooding to communities in Bulacan. (Photos by Michael Varcas/The Philippine STAR)

'ANO PO ANG CONFIDENTIAL INFORMATION NA MAIBIBIGAY NG ISANG 3-YEAR-OLD?'

LOOK: Some names listed as Duterte's confidential fund recipients had single matches in PSA birth records of minors, says PSA Assistant National Statistician Marizza Grande.

Prosecution counsel Mae Divinagracia asks what confidential information could be provided by minors.

Defense counsel Justin Gular objects on the ground that the question is speculative. The objection is sustained. **#VPonTrial** | via April Benjamin, **INQUIRER.net**

So last week, something genuinely interesting happened.

The UN General Assembly voted to encourage a move away from the Mercator projection for general educational and public-facing maps and towards projections like Equal Earth, which represent the relative size of landmasses far more accurately. The resolution passed 164-1, with six abstentions. Yes, you probably guessed right as to who voted against it.

Now, before anyone starts panic-buying atlases, the UN has not outlawed Mercator. It remains useful for navigation, which is what Gerardus Mercator designed it for in 1569. The problem is that when you flatten a globe onto a rectangle, something has to give. Mercator preserves angles and directions beautifully, but it absolutely mangles relative area. The further you get from the equator, the more land gets visually inflated.

Greenland is the classic example.

On a Mercator map, Greenland looks roughly comparable to Africa.

In reality, Africa is about 14 times larger.

Sep 07, 2026 12:58:02

facebook

In reality, Africa is about 14 times larger.

The resolution was driven by Togo and backed by African states as part of the “Correct the Map” campaign. The idea is fairly straightforward... if you are teaching geography, showing maps in the media or building public-facing educational material, perhaps the continents should broadly resemble their actual relative sizes. Radical stuff.

Yes, it was the United States voted against it.

Why?

According to reporting on the vote, Washington objected that the resolution had become ideological rather than simply technical. So, I don’t think we can confidently say it was because someone in the Pentagon couldn’t be bothered reprinting the stationery.

Australia, Canada and New Zealand voted in favour, while making the sensible point that no flat map can perfectly represent a spherical Earth and that different projections remain useful for different purposes.

And that bit matters.

There is no perfect flat world map.

Every projection sacrifices something... shape, area, distance or direction. Equal Earth preserves relative area much better than Mercator while trying to remain visually familiar. It was developed in 2018, so despite the headlines, the UN hasn’t suddenly discovered cartography after a 457-year lunch break. What has changed is the institutional preference for how world maps should be presented outside navigation.

What has changed is the institutional preference for how world maps should be presented outside navigation.

Naturally, this rather gentle lesson in geometry immediately summoned that peculiar corner of the internet for whom “map projection” is one syllable away from “globalist weather machine”.

The comment sections filled with laugh reacts. Clown emojis. People declaring that the UN was “changing geography”.

Others explaining, with enormous confidence, that they would continue trusting the “real map”.

And somewhere, inevitably, a flat-earthers wander into the discussion and rambles about "Agenda 20[insert whatever we're up to now]".

The Mercator distortion isn’t evidence of a conspiracy.

It’s evidence that you cannot peel the surface

Sep 07, 2026 12:58:08

It's evidence that you cannot peel the surface off a sphere and lay it flat without stretching something.

We have known this for centuries.

Yet give the internet a cartographic projection and within twenty minutes someone will conclude Klaus Schwab has made Africa bigger.

The continents haven't moved.

The planet hasn't changed shape.

Nobody has added bonus kilometres to Ghana.

We've simply become a little better at visualising the world map.

FIRST COUSIN NI VP SARA: ‘SAFE NA SAFE KAYO DOON SA ICC’

Muling nagbigay ng matapang na reaksiyon si Dr. Nuelle Duterte, first cousin ni Vice President Sara Duterte, matapos sabihin ng bise presidente na “I do not feel safe” at nangangamba siya para sa kaniyang buhay kasunod ng paglabas ng warrant of arrest laban sa kanya sa kasong grave threats.

Sa kaniyang pahayag, tila pinayuhan ni Nuelle ang kaniyang pinsan na magtungo sa The Hague, kung saan kasalukuyang nakakulong ang kaniyang amang si dating Pangulong Rodrigo Duterte sa ilalim ng kustodiya ng International Criminal Court (ICC).

“I heard The Hague is a safe place. Look at your Tatay. He’s fine. No one has tried to kill him there.”

Dagdag pa niya, pabirong isinama si Sen. Ronald “Bato” dela Rosa sa kaniyang banat:

“Go pick up Bato before you go since he also fears for his safety in the Philippines apparently. Safe na safe kayo doon.”

Matatandaang sinabi ni VP Sara na hindi siya nakakaramdam ng seguridad at may pangamba siya para sa kaniyang buhay bago siya magpiyansa sa Quezon City Regional Trial Court. Nakapagpiyansa siya ng ₱360,000 para sa tatlong kasong grave threats na kinakaharap niya.

Samantala, tiniyak naman ng Malacañang at Philippine National Police na hindi gagamitin ang kapulisan upang saktan si Duterte at patuloy na tutugunan ang anumang lehitimong banta sa kaniyang seguridad.

PATAY NA SANGGOL, PAYEE SA CONFIDENTIAL FUNDS?

Assistant National Statistician Marizza Grande said a 2-month-old baby who died in 1965 was the youngest among the confidential fund payees with a “single-match entry” for a death certificate.

ANG TEAM UNITY IN GMA

Bago pa man mabuo ang Uniteam noong 2022 National Elections ay may nauna ng tinawag na Team Unity noong 2007.

Ang Team Unity (na kilala rin sa tawag na Together Everybody Achieves More o TEAM Unity) ay ang koalisyon ng mga partidong pampulitika na sinuportahan ng administrasyon ni noo'y Pangulong Gloria Macapagal-Arroyo para sa halalan ng 2007.

Binubuo ito ng mga pangunahing partidong pampulitika noong panahong iyon, kabilang ang LAKAS, KAMPI, NPC, LDP at PDSP.

Kabilang sa kanilang kandidato sina Edgardo Angara, Joker Arroyo, Mike Defensor, Sultan Jamalul Kiram III, Vic Magsaysay, Cesar Montano (pumalit kay Leyte Gov. Jericho Petilla), Tessie" Aquino-Oreta, Prospero Pichay Jr., Ralph Recto, Chavit Singson, Tito Sotto III at Migz Zubiri.

WALANG RECORD KAY ‘MARY GRACE PIATTOS’

Sinabi ng testigong si Philippine Statistics Authority (PSA) assistant national statistician Marizza Grande na base sa kanilang database, walang record ng birth, marriage, at kamatayan ang pangalang 'Mary Grace Piattos."

Sinabi ito ni Grande sa pagharap niya bilang testigo sa ika-22 araw ng impeachment trial ni Vice Pres. Sara Duterte ngayong Lunes, Sept. 7.

"Base po roon sa information na ibinigay at sa amin pong database, wala pong record ng kapanganakan, wala po ng record ng kasal, at wala rin pong record ng kamatayan ang isang Mary Garce Piattos po," saad ni Grande.

"Based po sa aming CRS database, wala pong nagngangalang Mary Grace Piattos sa amin pong record," dagdag niya.

A table of verification results presented during the impeachment trial of Vice President Sara Duterte on Monday showed single-match entries in the Office of the Vice President (OVP) and Department of Education (DepEd) confidential-fund recipient lists involving individuals whose death certificates indicated that they had already died before the listed transactions.

Certificates of death generated from official Philippine Statistics Authority (PSA) data were presented to support the verification results in the table.

Among the entries was Fortunato Salig, who was listed as having received ₱200,000 despite a death certificate showing that he died 2011. His name appeared on a document signed in 2023.

Emilio Sagan was also listed as having received ₱70,000 despite a death certificate showing that he died in 2015. Meanwhile, Rodolfo Traya, whose death certificate showed that he died on 2021, appeared on a 2023 document indicating that he received cash through an acknowledgment receipt.

According to the verification results presented during the proceedings, a total of 34 death

Unclean, unsafe and insecure.
Damaged smoke detectors. Stained bedding. Dirty showers. No air conditioning. Missing insect screens on the windows. Sticky carpet. Suspect blotches on the carpets. Door locks falling apart.
Chemically altered residents.
Cigarette smoke smells in the corridors. Other unidentifiable smells in the rooms.
The police detectives we spoke to who were leaving as we arrived were nice though.

Alarm bells were ringing when we arrived with the police outside.
Avoid this place at all costs. The room was absolutely filthy and the whole place had the feel of a drug den.
We left immediately for fear of our own safety if we tried to sleep there. The owner did not seem at all surprised, and judging by the other reviews, he has people leaving regularly

Lava fountains burst from Anak Krakatau in dramatic overnight eruption

1	33	6m

#ABSCBNNews #LatestNews

Indonesia's Anak Krakatau erupted overnight into Saturday, sending lava fountains from its crater as authorities warned people to stay away from the volcano.

Footage shows a thick plume of smoke rising from Anak Krakatau before glowing lava bursts from the crater.

The eruption began at around 23:07 local time on Friday and continued into Saturday morning. Anak Krakatau remains at Level III, or Alert status.

The volcano emerged from the remains of Krakatau after its catastrophic 1883 eruption. In 2018, part of Anak Krakatau collapsed into the sea during an eruption, triggering a tsunami that killed more than 400 people around the Sunda Strait.

'HINDI DAPAT GINAGAWANG TAGUAN ANG FRANCE'

Ombudsman Boying Remulla said he will fly to France to talk to French authorities regarding the investigation into Sen. Loren Legarda and Rep. Leandro Leviste.

Legarda left for France while Leviste flew to Hong Kong on separate flights on August 2, according to the NBI.

Former Rep. Zaldy Co is also reportedly staying in Paris, France.

MOCHA USON DENIES PREGNANCY RUMOR INVOLVING ROBIN PADILLA

Actress, singer and vlogger Mocha Uson has addressed rumors that she disappeared from the public eye after allegedly getting pregnant with Sen. Robin Padilla's child.

In an interview with broadcaster Susan Enriquez, Uson said the rumor apparently stemmed from an online blind item about a supporter of a politician and a controversial public official who supposedly had a child. She said neither she nor Padilla was identified in the original post, making her wonder why they were dragged into the rumor.

On August 30, Courtney Budzyn told the internet that her dog had cancer. It was hard news, but it came with something to hold onto. After a single week of treatment Tucker was already in partial remission, and the vets thought he had somewhere between one and three years left.

Yesterday she posted again. This time to say he had died six days ago, on September 2. He was eight.

The lymphoma had been in his intestine. The treatment worked on the cancer, but it left a hole where the cancer had been, and an infection got in. She said it seemed to hit him overnight. They woke up, rushed him to the vet, and thought they were going to beat it. He was given antibiotics and fluids. He was very weak. His temperature kept climbing, and eventually there was nothing left to do but let him go.

She said afterward that it feels like she lost a body part.

Tucker was adopted in 2018 and became, by most measures, the most famous dog on the internet. Around twenty-five million people followed him. Courtney and her husband both quit their jobs to look after him and his son Todd full time. What made the videos work was

Tucker was adopted in 2018 and became, by most measures, the most famous dog on the internet. Around twenty-five million people followed him. Courtney and her husband both quit their jobs to look after him and his son Todd full time. What made the videos work was never anything clever. It was just his face.

She talked about his last three weeks in detail, and it is the best part of what she said. They went to the park over and over and he peed on every tree he could find. He went swimming twice, and both times his first jump into the water was powerful and strong. He wrestled with Todd in the backyard. He rolled in the grass and felt the wind in his fur. He ate chicken every morning and every night.

She said he saved her life.

What did your dog teach you that people never could?

Names listed as Duterte confidential fund recipients reportedly had “single-match entries” for PSA birth certificates — including children born in 2020 and 2022.

According to the PSA data presented, Miko Alquizar and Beatrice Cuenca were listed with ₱400,000 each, while Mikay delos Reyes was listed with ₱200,000, raising more questions over the identities tied to the confidential fund records.

CAN A PRIEST SAY MASS WITHOUT A CONGREGATION?

Imagine a priest arriving at a chapel for Mass.

The altar is prepared. The vestments are ready.
But nobody comes.

No choir.
No altar servers.
No congregation.

The priest is standing there alone.

Can he still celebrate Holy Mass?

Yes.

But there is something important to understand.

1. A Priest Can Celebrate Mass Even Without a Congregation.
The Catholic Church recognizes that a priest can celebrate Mass even when no other faithful are present. The Mass does not become invalid simply because nobody else came. Christ is still the one who acts in the Eucharistic celebration through His ordained minister.

2. But the Church Normally Wants the Faithful to Participate.

2026-09-07 16:26:46

2. But the Church Normally Wants the Faithful to Participate.
The Mass is not meant to be a private activity that Catholics normally replace with individual prayer. The Church teaches that the faithful should take part in the Eucharistic celebration, especially on Sundays and holy days. The Eucharist is the action of the whole Church.

3. The Priest Is Still Celebrating for the Church.
Even when a priest celebrates Mass without a congregation physically present, he is not celebrating as though the Mass were simply a personal prayer. The priest acts in the person of Christ and offers the Eucharistic sacrifice as a minister of the Church. The Mass therefore remains an act of worship of the Church.

4. The Church Does Not Require a Large Crowd for the Mass to Be Valid.
A Mass does not become “more valid” because hundreds of people attend. Nor does it become invalid because only the priest is present. The validity of the Eucharist depends on the proper matter, form, minister and intention, not on the size of the congregation.

5. So What Happens If Nobody Shows Up?
The priest can still celebrate the Mass, although canon law expresses a preference that a priest not celebrate without at least one member of the faithful unless there is a just and reasonable cause. And when Catholics are

2026-09-07 16:26:49

5. So What Happens If Nobody Shows Up?
The priest can still celebrate the Mass, although canon law expresses a preference that a priest not celebrate without at least one member of the faithful unless there is a just and reasonable cause. And when Catholics are able to participate, they should not think, “The priest can say Mass without us, so we don't need to go.”
The Sunday Eucharist is meant to be celebrated and participated in by the Christian community.

In simple words, yes, a priest can celebrate Mass without a congregation.
The Mass does not depend on having a crowd to be valid.
But the Eucharist is fundamentally the worship of Christ and His Church, so the faithful should participate whenever they can, especially on Sundays.
Sometimes the priest may appear to be standing alone at the altar.
But the Mass is never simply “the priest and nobody else.”
Christ is there, and the priest is celebrating as a minister of His Church.

Now you know.

If you arrived for Mass and discovered that only the priest was there, would you still stay for the Mass?

A very strong El Niño does not mean the same impacts everywhere.

El Niño and La Niña are among the most powerful naturally occurring influences on the global climate system. A very strong event increases the likelihood of major changes in rainfall, temperatures and atmospheric circulation across many regions of the world.

However, the strength of an El Niño event alone does not determine how severe its impacts will be in any individual country or region. Its effects vary according to location and season and can be modified by other climate drivers, including conditions in the Indian and Atlantic Oceans.

WMO's Global Seasonal Climate Update shows a more refined picture of expected conditions.

September–November 2026 forecast:
🌡️ Above normal temperatures are expected across almost all land areas.

🌧️ Rainfall patterns show a pronounced and classic atmospheric response to the strong Pacific El Niño: wetter conditions in some regions & drought risk in others

2026-09-07 16:31:03

🌧️ Rainfall patterns show a pronounced and classic atmospheric response to the strong Pacific El Niño: wetter conditions in some regions & drought risk in others.

🌊 A positive phase of the Indian Ocean Dipole (IOD) is also expected to develop, reaching a September-October-November 2026 seasonal mean value of 0.9°C. Meanwhile, the equatorial Atlantic basin is forecast to remain generally warm, with SSTs in both the North and South Tropical Atlantic staying above normal. These conditions may reinforce, weaken or alter typical El Niño impacts in different regions.

Because El Niño can reshape weather and climate patterns thousands of kilometres away from the tropical Pacific, reliable forecasts provide governments, humanitarian agencies, businesses and communities with valuable time to prepare.

WMO Members and partners will continue to closely monitor the evolution of the event and regularly update forecasts of its likely regional impacts.

EVERY WORLD MAP YOU GREW UP WITH WAS A LIE. 🌍⚠️

In September 2026, the United Nations General Assembly made history by passing the "Correct the Map" resolution (164 votes in favor) — formally urging the world to abandon the 450-year-old Mercator map in schools and media.

Look closely at this side-by-side comparison:

1️⃣ ON THE TOP: The Mercator Projection (1569)
Drawn during the age of colonial sailing ships, it stretches landmasses massively the further they get from the Equator.
• Greenland appears as big as the entire continent of Africa.
• Europe appears larger than South America.
• Alaska looks bigger than Brazil.

2️⃣ ON THE BOTTOM: The Equal Earth Projection (UN Adopted)
A modern mathematically proportional projection where every landmass is drawn to its exact true surface area.

THE MIND-BLOWING REALITY:
• Africa is 14.06 TIMES LARGER than Greenland ($30.37M km² vs $2.16M km²). You can fit the United States, China, India, and almost all of

Alaska looks bigger than Brazil.

2️⃣ ON THE BOTTOM: The Equal Earth Projection (UN Adopted)
A modern mathematically proportional projection where every landmass is drawn to its exact true surface area.

THE MIND-BLOWING REALITY:
• Africa is 14.06 TIMES LARGER than Greenland ($30.37M km² vs $2.16M km²). You can fit the United States, China, India, and almost all of Europe inside Africa with room to spare!
• South America is nearly DOUBLE the size of Europe ($17.84M km² vs $10.18M km²).
• Brazil is 5 TIMES LARGER than Alaska.

Gerardus Mercator never designed his map for classrooms—he designed it so 16th-century sailors could draw straight compass lines across oceans. But for 450 years, it shaped how billions of people perceive the planet.

Did your school textbook show you the Mercator map or the true size of Earth? Let us know in the comments! 👇

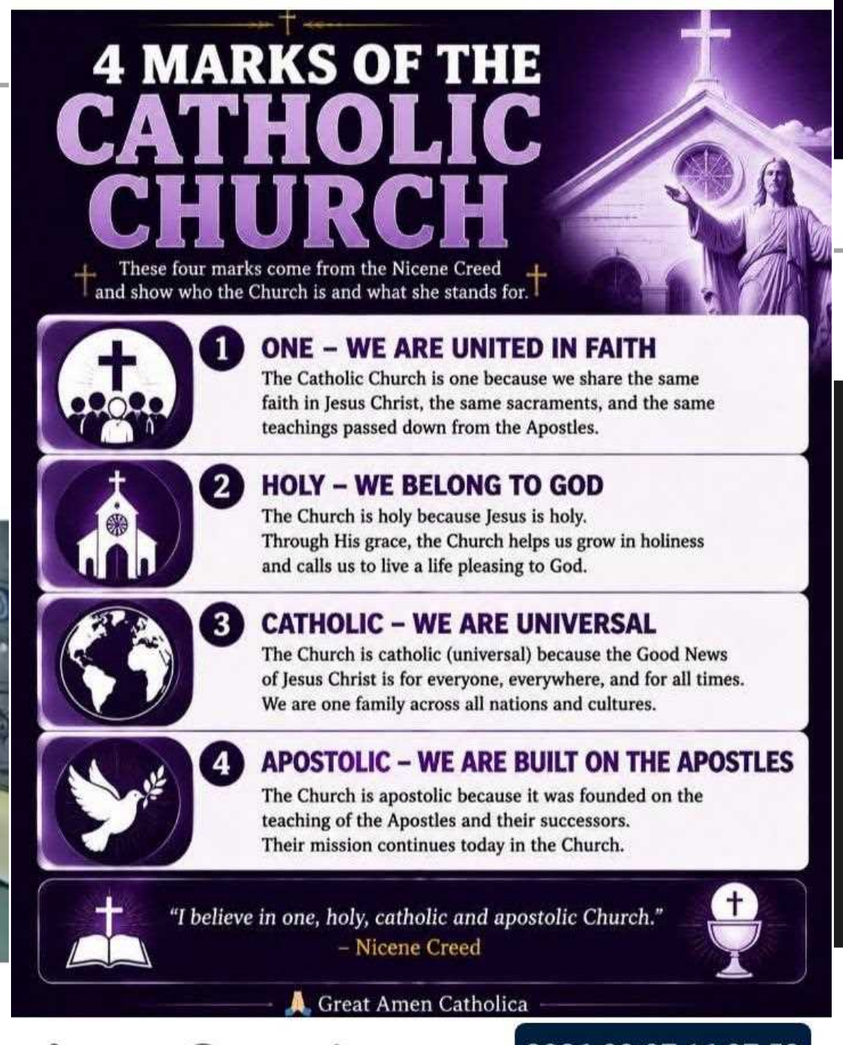
4 MARKS OF THE CATHOLIC CHURCH... more



4 MARKS OF THE CATHOLIC CHURCH
These four marks come from the Nicene Creed and show who the Church is and what she stands for.
1 ONE – WE ARE UNITED IN FAITH
The Catholic Church is one because we share the same faith in Jesus Christ, the same sacraments, and the same teachings passed down from the Apostles.
2 HOLY – WE BELONG TO GOD
The Church is holy because Jesus is holy. Through His grace, the Church helps us grow in holiness and calls us to live a life pleasing to God.
3 CATHOLIC – WE ARE UNIVERSAL
The Church is catholic (universal) because the Good News of Jesus Christ is for everyone, everywhere, and for all times. We are one family across all nations and cultures.
4 APOSTOLIC – WE ARE BUILT ON THE APOSTLES
The Church is apostolic because it was founded on the teaching of the Apostles and their successors. Their mission continues today in the Church.

CAN A CATHOLIC CHURCH EVER BE SOLD?

Imagine passing by a Catholic church one day and seeing a sign outside:

“FOR SALE.”

You stop and wonder:

“Can a church that was dedicated to God really be sold?”

It sounds strange, but the Catholic Church actually has laws that address this situation.

1. A Church Is Not Treated Like an Ordinary Building.
A Catholic church is a sacred place dedicated to divine worship. Because of this, it cannot simply be treated like an ordinary house, shop or office. Its sacred purpose gives it a special status under Church law.

2. A Church Can Be Reduced to Profane Use.
Yes, a church can sometimes cease to be used as a church. Canon law provides for a church to be reduced to profane but not sordid use when it can no longer be used for divine worship and there are serious reasons for doing so. This is not simply a casual decision to close the building.

2. A Church Can Be Reduced to Profane Use.
Yes, a church can sometimes cease to be used as a church. Canon law provides for a church to be reduced to profane but not sordid use when it can no longer be used for divine worship and there are serious reasons for doing so. This is not simply a casual decision to close the building.

3. The Church Has a Formal Process.
The decision must be made by the competent Church authority according to canon law. For a church belonging to a diocese, the diocesan bishop has authority to reduce it to profane use under the conditions established by Church law. Certain circumstances also require consultation with those who have rights concerning the church.

4. After Being Deconsecrated, It Can Be Used for Another Purpose.
Once legitimately reduced to profane use, the building is no longer being treated as a church dedicated to divine worship. It may then be used for another suitable purpose, provided that the new use is not sordid or unworthy. Depending on the circumstances, this can make a sale possible.

5. But the Blessed Sacrament and Sacred Objects Must Be Properly Handled.
Before a church is closed or its use is changed, the Blessed Sacrament must be transferred appropriately, and sacred objects must be treated according to Church law. A church is never simply emptied and handed over like an ordinary commercial property.

In simple words, yes, a Catholic church can eventually be sold, but it is not as simple as putting up a “For Sale” sign.
The Church must first legitimately cease to be a place dedicated to divine worship according to canon law.
Even when a church building changes ownership or purpose, the Church's sacred things must always be treated with reverence.

Now you know.

If a Catholic church had to close permanently, what do you think would be the most difficult thing for the parishioners?

20 years ago, Hero TV changed the way Filipinos watched anime. When it first launched in November 2005, it was a bold experiment: 24/7 anime dubbed in Filipino, airing shows that generations of kids would grow up with. For more than a decade, Hero TV was part of our childhood.

For many of us, afternoons meant rushing home to catch the latest episode of Naruto or Bleach, this time shouting their battle cries in Tagalog. Weekends were spent glued to marathons of Shaman King, Samurai X, or Zoids. It was the channel that brought our favorite heroes closer, speaking in a language that felt like ours.

Even though Hero TV signed off in 2018, its legacy lives on. It built a generation of anime fans, gave voice actors a spotlight, and helped shape the local anime community into what it is today.

The world's strongest passports offer access to more destinations without a prior visa, giving their holders greater freedom and flexibility when traveling internationally.

WORLD'S MOST POWERFUL PASSPORTS
1 SINGAPORE 192
2 JAPAN • SOUTH KOREA • UAE 188
3 SWEDEN 187
4 BELGIUM • DENMARK • FINLAND • FRANCE • GERMANY • IRELAND • ITALY • LUXEMBOURG • NETHERLANDS • NORWAY • SPAIN 186
5 AUSTRIA • GREECE • MALTA • PORTUGAL • SWITZERLAND 185
6 HUNGARY • POLAND • UNITED KINGDOM 184
7 AUSTRALIA • CANADA • CZECHIA • LATVIA • MALAYSIA • NEW ZEALAND • SLOVAKIA • SLOVENIA 183
8 CROATIA • ESTONIA 182
9 LIECHTENSTEIN • LITHUANIA 181
10 ICELAND • UNITED STATES 180
Important Nuance:
Passport power is measured by how many destinations holders can access without securing a visa before travel. Higher scores mean broader global mobility, though entry rules, permitted stay lengths, and conditions still vary by destination.

Open-sourced an app I made.

Sa mga meetings namin, usually walang nagno-notes.

So I thought, might as well make something that does it.

That's how **Notero** started.

I wanted a free, fast, offline transcriber for my Mac.

At the same time, I wanted to see how good Whisper actually is with real meeting audio, especially Tagalog and Taglish.

It uses **WhisperKit** for transcription and **FluidAudio** for speaker identification. Everything runs locally.

I also added a benchmark feature so you can test the different Whisper models on your own recordings.

So far, I tested it on a **2 to 3 hour Taglish meeting**. The best model took around **45 minutes** to transcribe .

You can export the transcript and use ChatGPT or Claude for the meeting minutes, summary, action items, etc.

And yeah, most of the app was AI-generated.

Hope someone finds it useful.

Africa is the biggest continent, and one story cannot define the whole of it.

Facts have no feelings we are in a generation that will dig the truth until every lie is exposed. With time, more facts will come out, and I believe God will eventually bring the truth to light.

Time reveals what emotions try to hide.

PULIS, NAGPAANAK SA BANGKETA

Isang pulis ang nagpaanak sa isang buntis sa tabing-kalsada sa Gov. Pascual Avenue sa Malabon City, Linggo ng umaga, Setyembre 6.

Kinilala ang pulis na si Patrolman Roselindo de Lima ng Tactical Motorcycle Riding Unit ng Manila Police District.

Ayon kay De Lima, kagagaling lang niya sa duty at pauwi na nang madaanan ang buntis.

Hindi aniya siya nagdalawang-isip na tulungan ang buntis dahil nakita niyang nanghihina na ito.

Ligtas na nakapanganak ng baby girl ang babae.

Pinuri ng National Police Commission at MPD ang ginawa ni De Lima na nakatakdang makatanggap ng pagkilala. (📷: MPD) | via Jessie Cruzat, ABS-CBN News

NAKATANGGAP NG CONFIDENTIAL FUNDS?

Lumalabas na 25 menor de edad ang nakatanggap umano ng confidential funds ni Vice Pres. Sara Duterte, ayon sa witness na si Philippine Statistics Authority (PSA) assistant national statistician Marizza Grande.

"Based sa June 26 na verification namin, nakita namin as per record, meron pong 20 na menor de edad sa OVP list at doon naman po sa DepEd list, meron pong limang menor de edad based sa birth certificate," saad ni Grande sa pagharap niya bilang testigo sa pagpapatuloy ng impeachment trial kay Vice Pres. Sara Duterte ngayong Lunes, Sept. 7.

Fernando Lopez
Si Fernando "Nanding" Hofileña Lopez isa sa mga pinakabantog nga personalidad sa patag sang politika sa Pilipinas. Sa pihak sang iya mataas nga nadangatan, naggubilin nga nakatanga sang mubakod ang iya panimuot sa iya nanay-an nga kabanwahan Hoogge.
Sa iya nga pagdakù sa Iloilo, natun-an niya ang labing-maayo nga panimuot kag panggingawî—may integridad, katûtom, kag paghigugma sa isigkatáwo—nga amo ang nagtalanâ sang iya pampublikô kag pribado nga kabuhî. Sa iya bug-os nga pagkabuhî, iya gid gindumdom ang iya dutang-nutawhan paagi sa iya kaaluwan kag pagbulig sa edukasyon sa iya mga kasimanwa.
Ang iri nga eksibit nga ginsig-ulohan, NANDING: Hándumanan sang Panuhûton ni Fernando Lopez, nagapakita sang pinili nga mga obra, litrato, kag personal nga mga hándumanan, nagadumdom sang kabuhî kag legasiya sang isa ka maayod-tayod nga manghimangca—anay Bise Presidente kag Senador sang Repoblika sang Pilipinas—kag isa ka hinigugma nga anak sang Iloilo.
Iri nagapakita sang koleksyon nga gintalad sang pamilya sang nagtalawan sa nga manghimangca, pasig sa iya apo nga si G. Robert Lopez Puckett, hilang pagkilala sang indi-mahimtan nga legasiya ni Fernando Lopez. Gindumdom sya indi lamang sa kasuguan, kundi subong man sa yagipasuon sang iya banwang nanay-an.

Pagtukod sang Fundasyon
Si Fernando "Nanding" Hofileña Lopez isa ka dalayawon nga tagpangalagad sang publiko. Ginkilala sya sa iya pagkadungganon kag sa iya huwaran nga pagserbisyo.
Natawo sya sang Abril 13, 1904, sa Jaro, Iloilo, kanday Benito Lopez kag Presentacion Hofileña. Nag-eskwela siya sa Colegio de San Juan de Letran, sa diin sya nakatapos sa elementarya kag sekundarya sang 1921. Natapos niya ang iya kurso nga Bachelor of Laws sa University of Santo Tomas sang tuig 1925 kag nakapasar sa pasinawan sa bar sa amo man nga tuig.
Sa baylo nga magsunod sa tradisyunal nga pagpanabang, ginpili ni Lopez nga gamiton ang iya ihibalo sa pagbulig sa iya magulang nga si Eugenio Lopez Sr. sa pagtukod kag pagdumala sang nagkalain-lain nga mga negosyo.
Isa siya sa mga nagbulig sa pagtukod sang Chronicle Broadcasting Network (CBN), nga sa ulihi gin-upod sa Alto Broadcasting System (ABS) nga anay ginapanag-iyahan ni Antonio Quirino, kag sang ulihi, ginhingadlan nga ABS-CBN. Isa man siya sa mga nagtukod sang Iloilo College, nga subong ginahingadlan nga University of Iloilo. Nakapangalagad man sya bilang presidente sang sini nga buluthuan.

Sen. Nanding Lopez
Former Mayor of Iloilo City and Former Vice President of the Philippines
SONNET ON HIS 54TH BIRTHDAY (1904-1958)
THERE IS A MAN just that, a mere earth's son
Like you and me of us, of human mould,
Yet for his spirit pure and heart of gold—
Both gleaming like twin banners in the sun,
And his benevolence that far transcends
The palace of his wealth, his common touch
That is not made but in his nature much—
Yes, for all these, HE, who but fashions friends
And grows no enemies in his pursuits,
Becomes a prince of men fast as he can,
A shade above and light amidst grass-roots,
We may some day see in the nation's plan
The Chief, productive of some jewelled fruits—
This is NANDING LOPEZ: BEHOLD THE MAN
Quezon City, Philippines

Tom Cruise may be 64, but Hollywood still had to make him look older! 👀🎬

For his role in Digger, Cruise reportedly needed prosthetics and heavy makeup to look more like an average 65-year-old man.

Just one year older—but apparently, movie magic makes all the difference! 😮

It's a reminder of just how much detail goes into transforming an actor for a role, even when the character is only slightly older than the actor playing them. 🎭✨

REMEMBERING LUCIANO PAVAROTTI

Ngayong araw inaalala ang anibersaryo ng kamatayan ng Italian operatic lyric tenor na si Luciano Pavarotti. Si Pavarotti ay isa sa mga pinakamahusay na bel canto opera singer ng 20th century.

Isinilang sa Modena, Italy noong October 12, 1935, nagtapos ng pag-aaral si Pavarotti sa Modena, Italy noong 1955 at nagturo sa loob ng dalawang taon habang isinasabay ang pag-aaral ng opera. Matapos magwagi sa singing competition na Concorso Internazionale, sumabay siya sa kaniyang unang opera na La Bohème sa Reggio nell’Emilia, Italy noong 1961. Mula noo’y nagtanghal siya sa iba’t ibang bahagi ng Europe at Australia at minsang ginampanan ang papel ni Idamante sa Idomeneo ni Mozart noong 1964. Una siyang nagtanghal sa U.S. noong 1965 nang umawit kasama ni Joan Sutherland sa dulang Lucia di Lammermoor. Noong 1968 nang una siyang magtanghal sa Metropolitan Oper House sa New York City hanggang sa tuluyan siyang maregular sa tanghalan. Ilan pa sa kaniyang mga operang itinanghal ay ang ‘Rigoletto’ (1851) ni Giuseppe Verdi, ‘La Fille du régiment’ ni Gaetano Donizetti, ‘I puritani’ (1835) ni Vincenzo Bellini, at ‘Aida’ (1871) ni Verdi.

Huling beses na nagtanghal si Pavarotti sa 2006 Winter Olympics sa Turin, Italy.
Pumanaw si Pavarotti noong September 6, 2007 dahil sa pancreatic cancer.

BREAKING: DEMOCRATIC NOMINEE FOR OHIO GOV. ATTACKED! Armed individual lunges at Amy Acton at a town fair – campaign says multiple people injured, suspect taken into custody!

Democratic Ohio gubernatorial candidate Amy Acton was targeted by an armed individual at the Canfield Fair near Youngstown Sunday, according to her campaign, in an incident that left multiple people injured.

“While attending the Canfield Fair, an armed individual lunged at Dr. Acton, injuring multiple people,” campaign communications director Addie Bullock said in a statement. “Dr. Acton and Eric are grateful for the swift and decisive action of law enforcement and are praying for the recovery of those injured.”

Mahoning County Democratic Party Chairman Chris Anderson said several campaign volunteers were knocked to the ground as the individual lunged toward Acton. He said the suspect was taken into police custody and was found to be carrying multiple weapons.

“What happened at our tent today during today's visit from Dr. Acton is reprehensible and should be condemned by leaders on all sides of the aisle,” Anderson said.

visit from Dr. Acton is reprehensible and should be condemned by leaders on all sides of the aisle,” Anderson said.

Acton's campaign did not say whether Acton herself was injured. Authorities have not yet publicly identified the suspect or disclosed a possible motive, and there is no basis at this point to characterize the incident as an assassination attempt.

“This kind of violence has no place in Ohio,” Bullock said. “Dr. Acton will always stand up to the chaos, hate and vitriol that pits us against one another.”

Acton, Ohio's former health director, is the Democratic nominee for governor and will face Republican Vivek Ramaswamy in November.

This is a developing story.

BREAKING: Democratic Ohio gubernatorial candidate Dr. Amy Acton was attacked by an armed individual who lunged at her during a campaign event at the Canfield Fair near Youngstown.

Multiple people were injured in the attack. Acton's campaign says law enforcement responded swiftly and decisively. It was not immediately clear whether Acton herself was injured.

"This kind of violence has no place in Ohio," her campaign said.

'AKO PO AY BINALOT NG MGA KARIMARIMARIM NA BALITA NITONG NAKARAANG ARAW'

Senator Robin Padilla asks the Senate's position on the grave threats raps against Vice President Sara Duterte.

"Ako po ay binalot ng mga karimarimarim na balita nitong nakaraang araw. Ang isang sitting vice president po ay isang impeachable officer. Ito po ay tahasang nakalagay sa 1987 Constitution, Article 11, Section 2. Ginoong Pangulo, 'di ba po ang impeachment ay mekanismong itinakda ng Konstitusyon upang panagutin sa politika ang isang impeachable officer o ang Vice President, at alisin siya sa tungkulin dahil sa mga impeachable offenses," he said in his manifestation on Monday.

Duterte on Saturday posted P360,000 bail for three counts of grave threats directed at President Marcos, first lady Liza Marcos, and former speaker Martin Romualdez.

"Ginoong Pangulo, ang minorya ay nagtatanong. Ano po ang posisyon ng Senado dito?… Ano ba naman itong nangyayaring ito sa atin, Ginoong Pangulo, kailangan po na

SHARING LEADERSHIP LESSONS WITH SAN AGUSTIN STUDENTS

I enjoyed sharing a few lessons from my own leadership journey with the young "komersyantes" of the University of San Agustin College of Business during the USA-JIMA Leadership Training last September 5. Their energy and enthusiasm made the conversation even more enjoyable.

Thank you to College of Business Dean Dr. Marivis A. Gangoso, JIMA Governor Kent Allen E. Fuentes, Vice Governor Raizellie S. Gomez, Project Head BM Edcel D. Hondrade, Project Co-Head BM Nicole Marie B. Caton, and the College of Business academic staff for having me.

To our young komersyantes, wherever your journey takes you, bring with you not only what you know, but the values that keep you grounded. Earn people's trust, stay true to your integrity, and always lead with a purpose bigger than yourself. Keep elevating your skills and your standards, but remember: the best kind of growth is one that helps the people around you grow, too.

ARESTADO NA SI ROMUALDEZ

Naihain na ang arrest warrant laban kay dating House speaker Martin Romualdez sa Cardinal Santos Medical Center sa San Juan City, ayon kay Interior Sec. Jonvic Remulla.

Kasunod ito ng inilabas na arrest warrant ng Sandiganbayan 3rd Division para sa kongresista kaugnay ng P7.4-bilyong plunder case.

Kaugnay nito, naghain ang kampo ni Romualdez ng manifestation of hospital confinement at urgent motion for continued hospital confinement under custody. | via Dave Abuel, #MOJO Danielle Dayao

SINILBIHAN NG ARREST WARRANT

Pormal nang inihain ng mga awtoridad ang arrest warrant laban kay dating House speaker Martin Romualdez sa Cardinal Santos Medical Center sa San Juan City ngayong Lunes, Sept. 7.

Para ito sa P7.4-bilyong flood control plunder case na inihain ng Ombudsman laban sa kongresista at tatlo pang indibidwal.

Na-confine si Romualdez sa ospital ngayong hapon dahil sa cardiovascular event, unstable blood pressure, at anxiety attack.

Pinatungan siya ng “orange shirt” bago kuhanan ng litrato.

Before mobile data became normal, Filipinos lived by the rules of prepaid load. Missed calls became signals because calls were expensive.

GM quotes and text jokes worked like daily broadcasts before app notifications. People bought load from sari-sari stores, relied on tingi load, waited for promos, and squeezed whole emotions into 160 characters.

Some habits still exist, but they no longer define daily communication the way they once did. The load era made connection feel limited, careful, and creative, giving Filipinos a whole language built around staying reachable.

PASSI CITY, SAN JUAN CITY SEAL SISTERHOOD PARTNERSHIP

The City Government of Passi, led by Mayor Stephen A. Palmares, and the City Government of San Juan, led by Mayor Francis Javier Zamora, formalized a Sisterhood Agreement on Thursday, September 3, 2026, opening opportunities for greater cooperation, knowledge-sharing, and exchange of best practices.

Mayor Zamora welcomed the partnership, highlighting the opportunity for the two cities to showcase their strengths and learn from each other.

Mayor Palmares said the agreement opens new opportunities for stronger collaboration and invited San Juan officials to visit Passi City and experience its programs, culture, and tourism attractions.

The agreement covers key areas including tourism, trade and industry, science and technology, culture and arts, education, sports, environmental protection, public health, social services, and urban development.

Linda Cardellini is officially an Emmy Award winner for "Outstanding Supporting Actress In A Limited Or Anthology Series Or Movie - 2026" for her role in DTF St. Louis, adding one of television's highest honors to a career that has taken her everywhere from acclaimed drama to supernatural horror and beloved mystery adventures.

For horror fans, Cardellini starred in 'THE CURSE OF LA LLORONA', stepping into the world of supernatural terror as part of the Conjuring universe. But long before that, she became a fan favorite as Velma Dinkley in the live action 'SCOOBY DOO' films, bringing one of the franchise's most iconic characters to life while helping solve spooky mysteries alongside Mystery Inc.

From Velma investigating monsters and ghosts to facing supernatural horrors and delivering acclaimed dramatic performances, Cardellini has proven her versatility time and time again.

Now, she can officially add Emmy winner to her name. Linda Cardellini's career has taken her through mysteries, monsters, horror and prestige television, and she continues to make every role her own.

BREAKING: The man arrested after allegedly pushing through a crowd toward Ohio Democratic gubernatorial candidate Amy Acton at the Canfield Fair has been identified as 38-year-old Patrick Havas. Authorities say he knocked two people to the ground and was carrying two handguns and brass knuckles, though investigators say the weapons were never drawn.

Havas is the brother of Andrew Havas, a Republican operative who resigned from Sen. Jon Husted's campaign after scrutiny of a past criminal case involving a 15-year-old, according to local reporting.

Patrick Havas was taken into custody and faces two assault charges and a disorderly conduct charge. Acton was not injured.

The nominated event is listed on WP:ITN/R, so each occurrence is presumed to be important enough to post. Comments should focus on whether the quality of the article and update meet WP:ITNCRIT, not the significance.

Nominator's comments: First successful orbital flight of a privately developed German (and western-European commercial) launcher. Spectrum flew from Andøya on 5 September 2026 (mission "Onward and Upward"), reached SSO after a 2025 maiden failure, and deployed five CubeSats plus an experiment. Coverage is widespread; the vehicle article already documents the flight. Unusual enough as a first for continental Europe that it is not just "another launch" under ongoing spaceflight. There were other launches from continental Europe (Russia) but these launchers were mot privately developed. Hektor (talk) 07:26, 6 September 2026 (UTC) [reply]

triumphed in the Saxony-Anhalt elections, falling just short of a majority. They are currently aiming to form a government, which,
if they are able to, would be the first time a far-right government has come to power at the German state level since you know
when. It's the largest AfD victory in a legislature in Germany up to this point. It's an event that's been getting major,
sustained, and original international coverage over its implications not just in Germany, but in Europe. Mind you that Germany is a
[[federal country]], which means that states there have some sovereignty, and

Ongoing item removal

Nominator's comments: It appears that the article has not received any substantive content updates in nearly a month. The last update I could find in the current version is for August 7, so it fails WP:ONGOING's:

> the article needs to be regularly updated with new, pertinent information. Articles whose most recent update is older than the oldest blurb currently on ITN are usually not being updated frequently enough for ongoing status.

The oldest blurb is dated at August 30. Left guide (talk) 22:39, 3 September 2026 (UTC) [reply]
